in the world.

Who We Are

AlphaESS is a leading global green energy storage solution and service provider. With expertise in BMS, EMS, system integration, and cloud monitoring, we excel in providing tailored solutions for a wide range of applications, including residential, commercial & industrial, and utility-scale projects.

AlphaESS has 40+ subsidiaries and branches worldwide, including China, Germany, Australia, Italy, the United Kingdom, South Africa, Singapore, Malaysia, and more. With over 200,000 systems actively running across 130+ countries, we have built a comprehensive global supply chain and logistics network.

Localization

Local Service Experience through a Global Network

We strive to provide our customers with seamless end-to-end services through our comprehensive localized service network, which offers convenient services including demand analysis, customized solutions, spare parts supply, professional training, warehouse management, fault analysis, and efficient maintenance. Our dedication lies in maximizing the utilization of our customers' systems and ensuring an exceptional service experience.

Core Technologies

AlphaESS masters core technologies including BMS, EMS, system integration and the monitoring platform. Its product lines cover micro, residential, commercial and industrial, and utility-scale energy storage, offering ESS solutions ranging from 1 kilowatt to hundreds of megawatts for the global market.

4 Major Technical Areas

Battery Management System (BMS)

Energy Management System (EMS)

Monitoring Platform

System Integration

4 Major Product Lines

Utility-scale Energy Storage Systems

Commercial and Industrial Energy Storage Systems

Residential Energy Storage Systems

Micro Energy Storage Systems

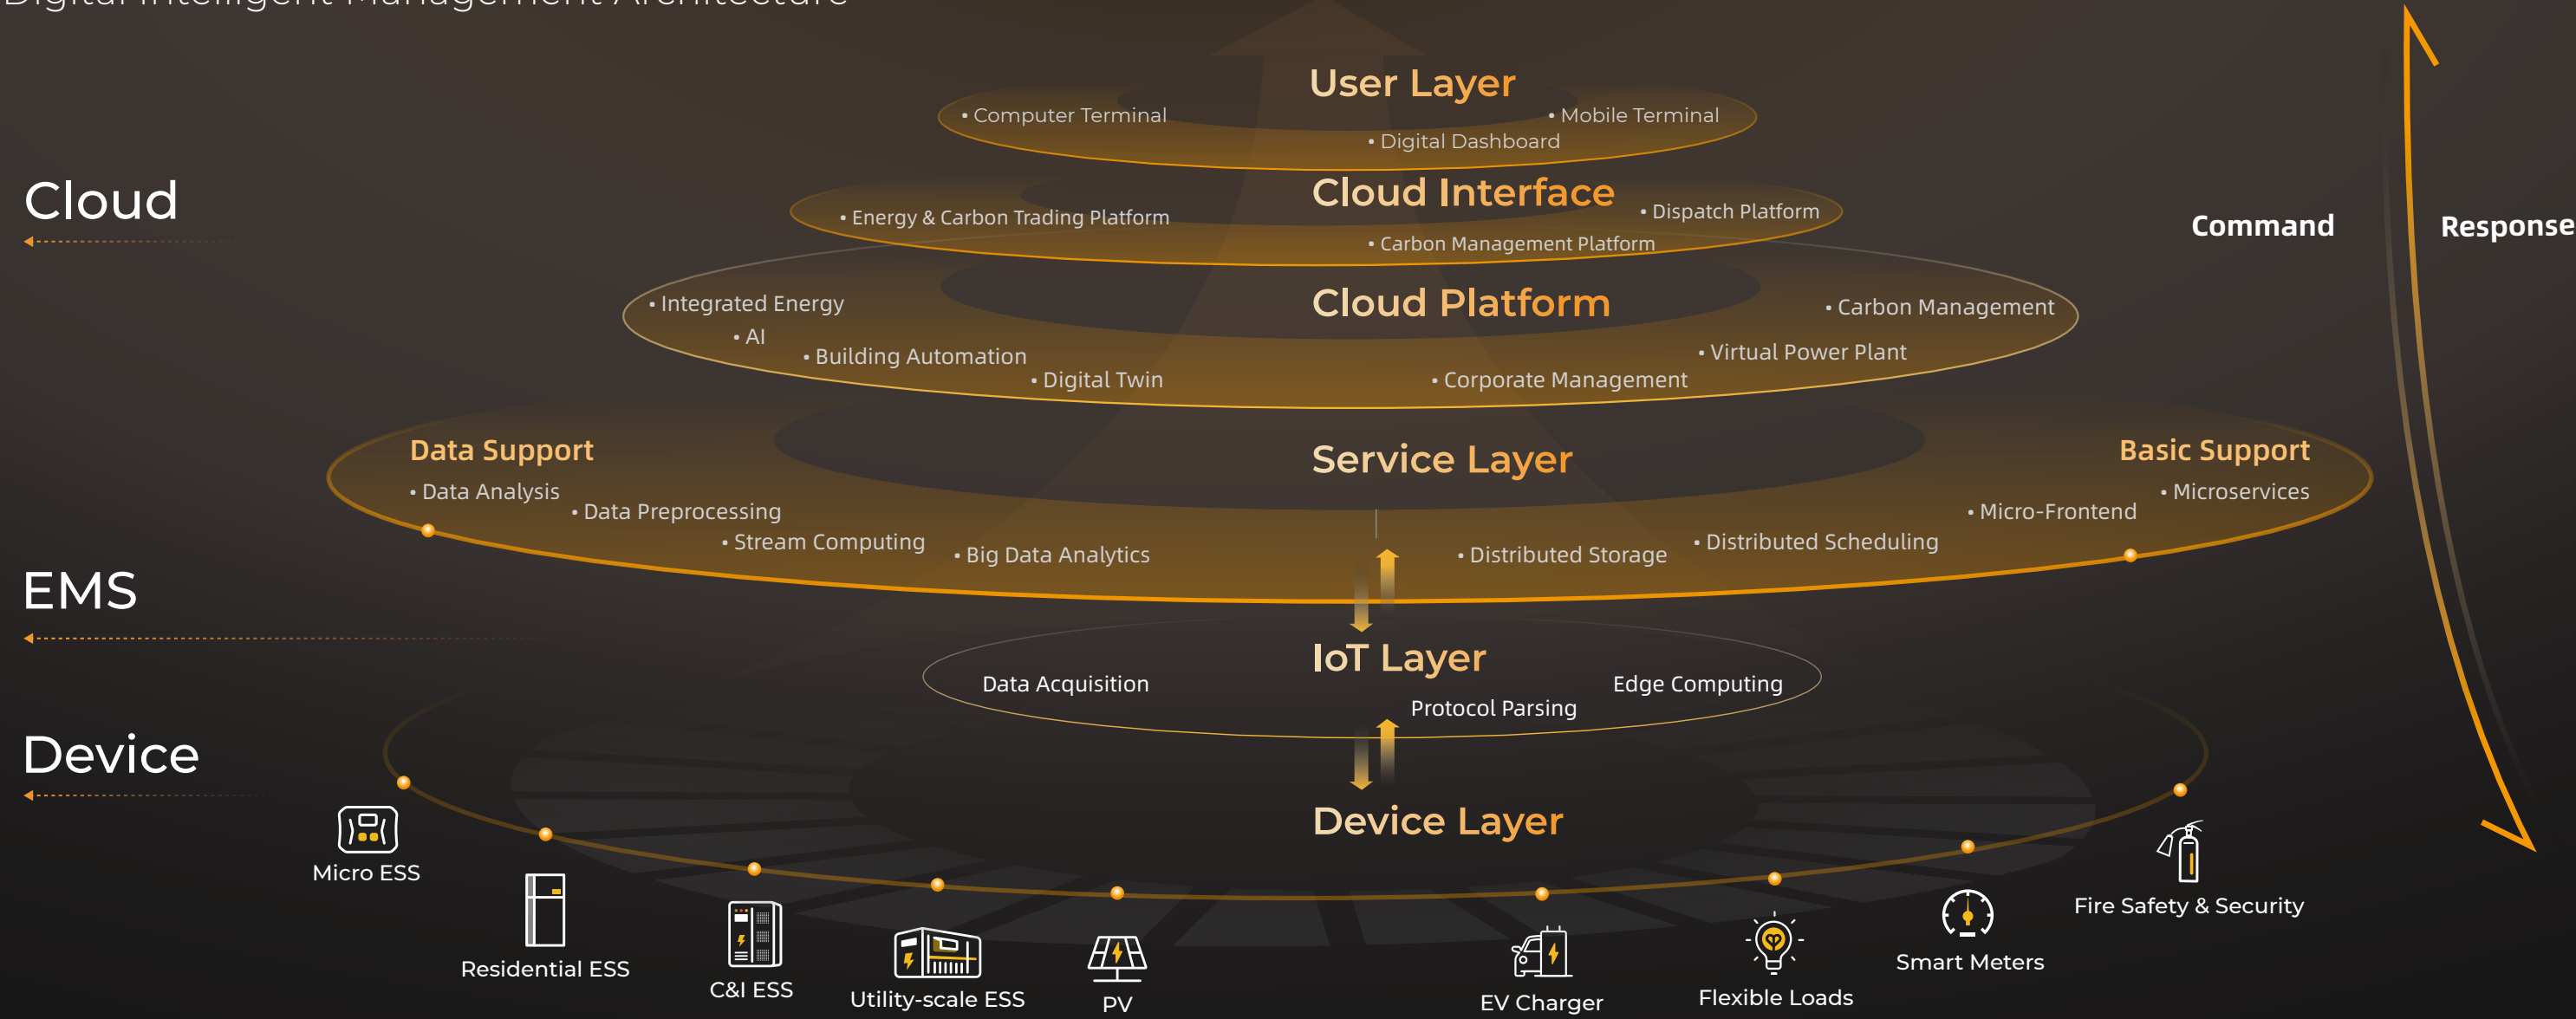

02

CORE STRATEGY

Smart Energy

Digital Intelligent Management Architecture

Safe and Reliable

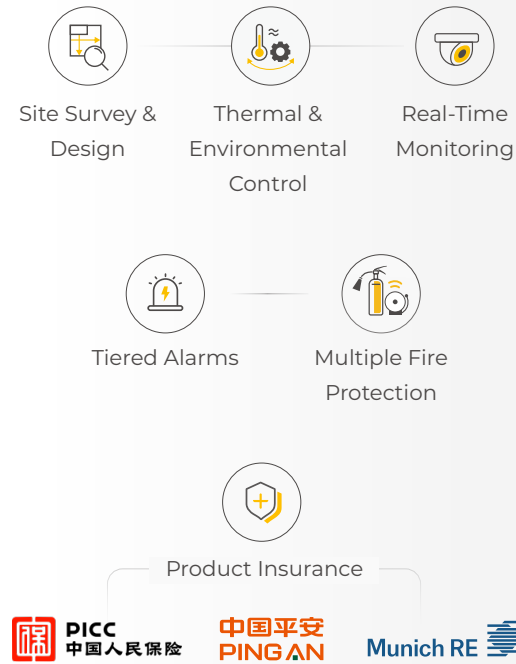

01 Material Safety

Secure the energy storage

Only first class, reliable **LiFePO₄** cell will be used

02 System Safety

Secure the quality and performance

03 Workplace Safety

Secure the green, smart, and sustainable future

- Integrate safety controls with intelligent devices to minimize human operation risks and enhance safe production.
- EHS in practice with everyone involved: trainings, accountability, and occupational health
- Less emission with clean and efficient production

04 Testing Safety

Leave no stone unturned

Battery Safety

- Compression Crash Tests
- Overcharge and Overdischarge Tests
- Short-Circuit Tests

EMS Safety

- EMC Tests
- Fault Waveform Recording Tests
- Hardware-in-loop Simulation Tests

Structural Safety

- Structural Strength Verification
- System Structural Simulation
- Structural Design Short/Long-term Testing Verification

Electrical Safety

- Short-Circuit Tests
- Overload Temperature Rise Tests
- Insulation Withstand Voltage Tests

Fire Safety

- Thermal Runaway and Propagation Tests
- Multi-dimensional Perception Detection Tests
- UL9540A Certification Tests

Environmental Reliability

- Low Pressure Tests
- Salt Spray Tests
- Temperature Shock & Humidity Cycling Tests

Service Leading

One-Stop Customer Service

Focusing on products, technology, customer relations, sustainability, and internationalization, we provide personalized and comprehensive one-stop service to ensure customers have an excellent experience throughout the purchase, use, and maintenance of our energy storage systems.

Customer Service Package — AlphaCare

The AlphaCare package is tailored for our end customers and partners, providing comprehensive services in technical support, financing plan, marketing etc..

- **Technical Support :**

Dedicated customer service from start to finish with our OSC (Online Service Center).

- **Marketing Support :**

Impactful co-branded initiatives to maximize brand exposure and early product upgrade info to stay competitive.

- **AlphaCloud :**

A lifetime-free energy management and monitoring platform for all AlphaESS systems.

- **AlphaPartner :**

Exclusive service platform for AlphaESS' parnters including distributors and installers.

ALPHA HOME

- All-in-One Energy Storage System
- PV-Storage-Charging Solution
- Balcony Energy Storage System
- Portable Power Station

Residential Series

AlphaESS provides energy storage solutions ranging from 1 to 20 kW for households. With the AlphaCloud monitoring platform, users can fully enjoy the economic benefits and convenience of smart energy management.

SMILE Product Series

- S**tronger Output
- M**odular Configuration
- I**ntelligent Management
- L**ong Lifespan
- E**fficient Operation

All-in-One Energy Storage System

Easy Installation

- All-in-One Design
- Plug & Play Wiring System
- Built-in SPD

Flexible Expansion

- Modular System
- Bypass for Faulty Battery
- No Need for SOC Calibration

Cutting-Edge VPP

- Tailored API for Dynamic VPP Scheduling
- Fast FCAS
- Global Compatibility*

*Leading the Australian VPP market; compliant with European Commission Regulations (EU) 2017/1485, 2016/631, 2016/1388, 2017/1485 for Frequency Containment Reserves

YOUR ALMIGHTY KNIGHT

SMILE-G3 Series

SMILE-G3-S3.6 / S5 / B5 / S8

SMILE-G3-T4 / 5 / 6 / 8 / 10

SMILE-G3-T12 / 15 / 20

SMILE-G3 series offers single-phase solutions ranging from 3.6 to 8 kW and three-phase solutions from 4 to 20 kW for home energy storage, catering to both AC and DC coupled scenarios. It covers a comprehensive range of needs including self-consumption for residential homes, peak-valley arbitrage, dual power supply with diesel generators, VPP (Virtual Power Plant) scheduling, solar storage charging, and solar storage heating.

GOOD DESIGN AWARD

Single Phase / 7 kW

SMILE-G3-EVCT11
Three Phase / 11 kW

User-Friendly

- Easy installation
- High compatibility
- Keycard or AlphaCloud launching for proprietary identification
- 7m-long charging cable

Higher Profits

- 100% green energy consumption
- Subsidy available
- Lifetime-free upgrading online

Multiple Charging Modes

- Green mode: EV charged only by solar energy or battery
- Fast mode: First priority for EV charging
- ECO mode: Customized timers and fixed power

Datasheet

Available in: EU, UK

ALPHACLOUD MONITORING PLATFORM

AlphaCloud is a lifetime-free platform (for App and Web) where you can easily manage every device connected to AlphaESS systems. As soon as a device is plugged in, AlphaCloud reads its information and prepares all the possible configurations for you, so that you can learn about or change your energy plan anytime, anywhere.

Maximize your profit

- Exploit the full potential of your PV system
- Intelligent 24/7 monitoring to increase self-consumption
- Set parameters and join VPP

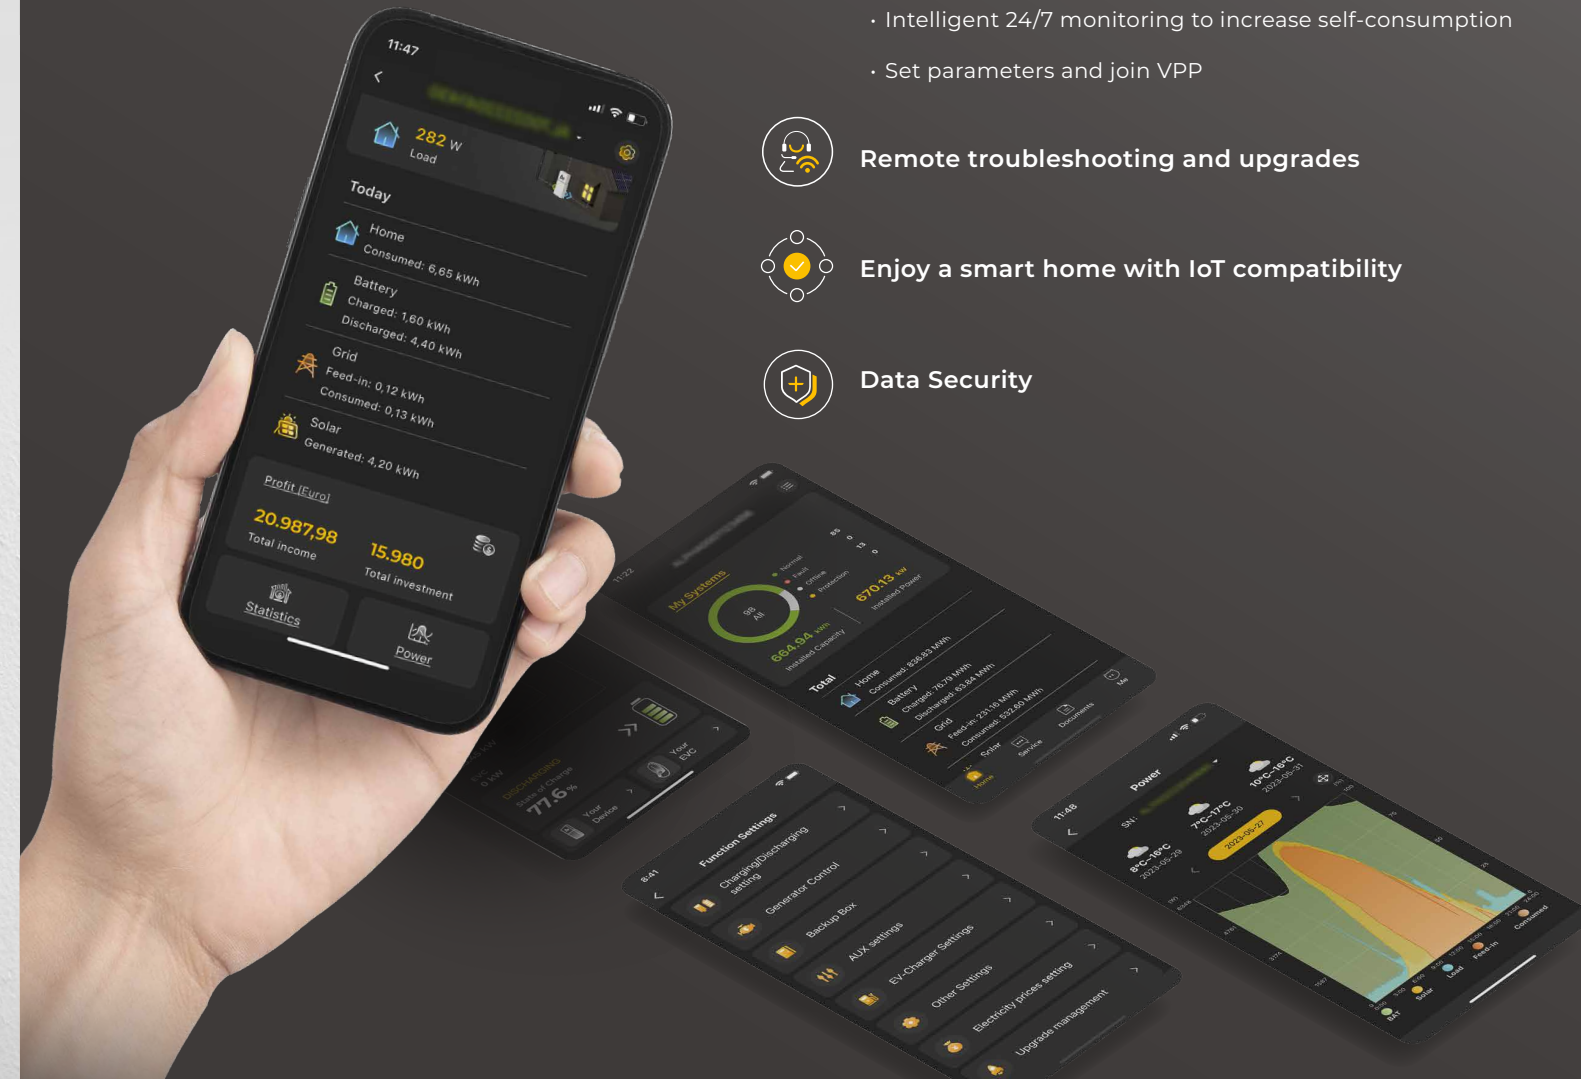

Remote troubleshooting and upgrades

Enjoy a smart home with IoT compatibility

MICRO ENERGY STORAGE SYSTEMS

May the Power be with you

AlphaESS's innovative 1-2kW/1-6kWh Micro Energy Storage Solutions are perfect for indoor balconies and outdoor portable settings. Featuring all-in-one design and plug-and-play installation, our systems guarantee safe and reliable power supply during emergencies and outdoor adventures. Embrace the freedom of green, clean energy—available whenever and wherever you need it.

BALCONY SOLAR ENERGY SYSTEM

VitaPower VT1000

• 1kW/2kW • 1-6 kWh

- **Plug & Play**
- **All-in-One Design:**
Built-in Battery, Micro-Inverter, DC Power Controller, and LCD
- **Versatile Applications:**
On-Grid and Off-Grid
- **Safe & Reliable:**
Durable Metal Casing & Extended Warranty Service
- **Stackable Expansion**

Available in: Germany

Brochure

BALCONY SOLAR ENERGY SYSTEM

VitaMate Set

Max. PV input power	600 W * 2
AC on-grid port max. input / output power	Max. 1200 W
AC off-grid port max. input / output power	2400 W / 1200 W
Battery port max. charge / discharge power	2400 W / 1200 W

Battery Parameters

Capacity	1024 Wh
Battery Chemistry	LiFePO ₄
Ingress Protection	IP65

- UPS-level off-grid switching time <10ms
- Support AC-coupled in balcony microinverter systems
- On-grid and off-grid applications

Available in: Germany

PORTABLE POWER STATION

- Big Capacity in Small Box
- Equipped with 2 Wireless Charging Pads
- Capable to Charge 12-15 Devices Simultaneously
- Chargeable with AC/PV
- 95% DoD (Depth of Discharge)

LARGE C&I PROJECT INVESTMENT MODEL

Client Self-Investment

AlphaESS is responsible for project construction and technical support; the ownership of the project and all profits belongs to the client.

Third-party Investment / EMC (Energy Management Contract)

The ownership of the project belongs to the third-party investor, while the user client, with zero investment and operating costs, share peak-valley arbitrage profits with the investor, thereby reducing energy loss and saving electricity costs.

AlphaESS Investment

AlphaESS invests and provides EPC contract, energy storage systems, and professional intelligent operation and maintenance services.

CREATING VALUE FOR OUR CLIENTS

- Comprehensive Energy Solutions for the Full Lifecycle
- One-Stop Customized Service
- Integrated Management

Full Lifecycle Service

Technical Analysis

- Preliminary Data Collection
- On-Site Survey
- Equipment Selection
- Initial Project Design
- Technical Proposal Preparation

Investment Analysis

- Expert Proposal Analysis
- Economic Assessment
- Establish Development Intentions
- Signing of Relevant Agreements

Supporting Products

- Core R&D Team
- AlphaESS Core C&I Products
- System Commissioning and Testing
- Product Shipment and Delivery

Professional Construction

- Lean Construction
- Professional Debugging
- On-Grid Operation
- Compliant with Industry Standards and Specifications
- Low-Carbon Smart Park Platform Management

Intelligent Operation & Maintenance

- Software R&D Team
- Operation Data Statistics and Optimization
- Local Offices for Rapid Maintenance
- Intelligent Monitoring of System Operation
- Electricity Cost and Revenue Calculation

AI Digitalized & Visualized Smart Energy Management

Low-Carbon Smart Park Platform

The software platform functions as a digital hub and control panel for everything within an industrial park. Its AI algorithms ensure neat data analysis and informed decision-making, which increases the revenue of energy projects, reduces energy consumption, and facilitates the maintenance of equipment.

Main Customers:

- Industrial Enterprises
- Industrial Real Estate / O&M Investors
- District / County Government
- Energy Projects / O&M Investors

Innovative Technologies:

- Distributed Energy Storage Virtual Power Plant Technology
- Industrial Park / Plant Digital Twin
- Integrated Platform
- Integrated Alarm System for All Facilities
- Integrated Surveillance Cameras / Access Control / Fire Protection System
- Integrated System Management
- Collaborative System Update and Optimization

Targeted Pain Points:

- Construction without integrated planning.
- Multi-platform operation and maintenance in parks / factories.
- Efficient operation and maintenance management, revenue and cost saving of multi-projects.
- By providing an integrated platform covering all the issues above, AlphaESS provides the best smart park management solution for business owners.

ALPHA C&I

Alpha C&I and Utility Solutions

For 30kW+ applications, AlphaESS C&I and utility-scale solutions can work in sync with wind and solar resources, significantly improving the self-consumption rate of clean energy, smoothing out power supply-demand fluctuations. They can also be integrated with advanced technologies such as smart energy management platforms and the Internet of Things (IoT), facilitating the transformation of energy structure and providing crucial support for achieving carbon neutrality goals.

Intelligent Fire Protection

5MWh

Liquid-Cooled Battery Container

Model	AlphaCS-H20-DC-LC 2.0
Rated Energy	5015.9 kWh
Ingress Protection	IP55
Charge/Discharge Rate	0.5 C
Battery Type	LiFePO ₄
Fire Protection	Perfluorohexanone + Water
Battery Module	M166314-S
	M332314-104S-CN

- Multiple fire protection systems, battery pack-level suppression
- Enhanced electrical protection to mitigate short-circuit risks
- Liquid cooling for uniform temperature, 20% less energy loss
- Compatible with various PCS and EMS
- Cloud-based data management, remote troubleshooting
- 34% increase in energy density, reducing upfront investment
- Two options available: back-to-back or double-sided doors, adaptable to different station layouts

Available in: China

1500V

Liquid-Cooled Battery Container

Model	AlphaCS-H20-DC-LC	AlphaCS-H20-DC-LC-EX
Rated Energy	3727.3 kWh	5015.9 kWh
Ingress Protection	IP55	IP55
Charge/Discharge Rate	0.5 C	0.5P
Battery Type	LiFePO ₄	LiFePO ₄
Fire Protection	Aerosol + Water (Optional: Perfluorohexanone)	Aerosol + Water
Battery Module	M166280-S	M332314-104S-EX

- Low noise
- High energy density
- Multiple intelligent fire protection systems
- Flexible layout, supporting parallel connection
- Intelligent thermal management strategy
- External maintenance design, efficient and convenient

Datasheet

Liquid-Cooled Battery Cabinet

Model	STORION-LC-372
Rated Energy	372.7 kWh
Ingress Protection	IP55
Battery Type	LiFePO ₄
Fire Protection	Aerosol + Water
Battery Module	M166280-S

All-in-one design for easy installation & transportation

Support parallel connection of multiple systems on the DC side

High IP rating and dehumidification solution

Liquid cooling, system temperature difference $\leq 3^{\circ}\text{C}$

Compartment-level & pack-level intelligent fire protection systems with explosion relief strategy

Datasheet

Air-Cooled All-in-One Cabinet

NEW!

Model	STORION-G2-H50	STORION-G2-H30
Rated Power	50 kW	30 kW
Rated Energy	55.2 ~ 104.8 kWh, Expandable up to 209.6 kWh	
Ingress Protection	IP20	
Battery Type	LiFePO ₄	
Fire Protection	Smoke Detector	
Battery Module	M7790-S or M38210-SC	

- PCS & battery all-in-one system
- Plug & play installation
- Seamless on/off-grid switching within 20ms
- Easy parameter settings, cloud-based control

- Multiple working modes available
- Support parallel connection of 5 systems (on-grid) or 3 systems (off-grid)

Datasheet

Model	STORION-H30-O
Rated Power	30 kW
Rated Energy	96.7 kWh
Ingress Protection	IP55
Battery Type	LiFePO ₄
Fire Protection	Aerosol
Battery Module	M7790-S or M38210-SC

- PCS & battery all-in-one system
- Plug & play installation
- Space-saving design
- Support parallel connection of 3 systems (off-grid)

Datasheet

Tailored Solutions

STORION-T50/ T100 Series

Model	Indoor	Outdoor
Rated Power	50 / 100 kW Available	
Rated Energy	62 ~ 968 kWh	62 ~ 387 kWh
Ingress Protection	IP20	IP54
Safety Protection	• Constant temperature control at 23±2°C • Self-diagnostic & EMS cell-level detection	• Smoke & temperature detection • FM-200 fire suppression system
Battery Module	M38180-S or M38210-S	

- All-in-one design, space-saving
- Flexible configuration
- On/Off-grid switching time ≤ 20ms
- Support 200% PV oversized
- High security & control: cell-level monitoring of batteries

Datasheet

TB187.5/375/500 Series

Model	Indoor	Outdoor (20/40ft)
Rated Power	187.5/375/500 kW Available	
Rated Energy	0.24 ~ 1.6 MWh	
Ingress Protection	IP20	IP54
Safety Protection	• Constant temperature control at 23±2°C • Self-diagnostic & EMS cell-level detection	• Smoke & temperature detection • FM-200 fire suppression system
Battery Module	M38180-S or M38210-S	

- Easy installation: most devices are pre-assembled at the factory
- Flexible configuration
- On/Off-grid switching time ≤ 20ms
- High security & control: cell-level monitoring of batteries
- Support parallel connection of containers: up to 2MW / 6.4MWh
